Bottom: Spirit Song Bench, W/W (124")

What if furniture could be beautiful, comfortable, and durable beyond all expectation? INTRODUCING SPIRIT SONG...Golden teak and shimmering stainless steel blend together in a timeless elegance of strength and stability. This exquisite line of heirloom furniture can be combined in countless arrangements for both indoor and outdoor use. Each design in the collection is a work of art, with graceful, elegant curves crafted by the team of Tiffany and Tiffany. This beautiful furniture graces gardens, fine homes, snowy mountaintop retreats, and tropical island resorts. Its comfort and strength have enriched university campuses, national museums, and corporate parks. The functional durability and aesthetic character of the Spirit Song Collection will soar above your expectations.

U.S. Patents # D443,769 and # 6,824,221
Spirit Song Bench Curved (96")
Tiffany Residence, Point Pleasant, PA

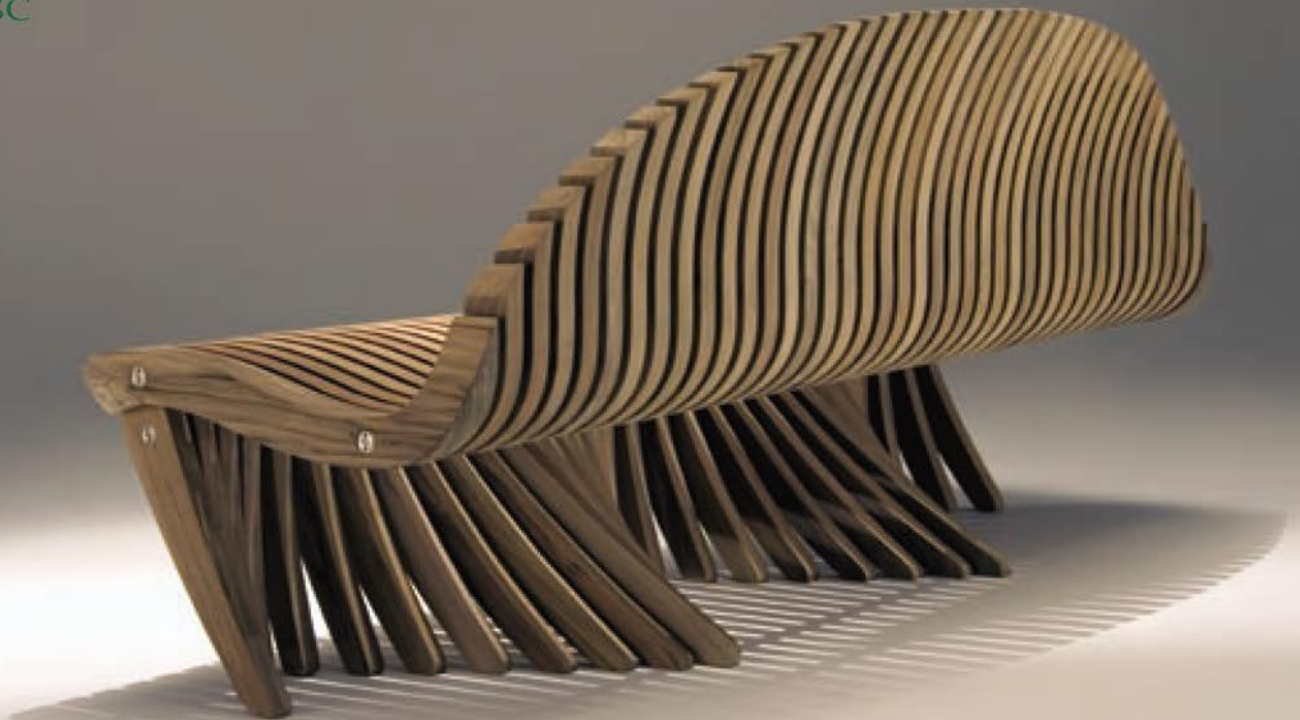

Spirit Song Bench, Custom S-Curve

THE SPIRIT SONG COLLECTION IS THE VERY ESSENCE
OF FUNCTIONAL ART.

Imbued with a sense of adventure, this beautiful furniture defines high style, supreme comfort, and fine craftsmanship. Born of an articulated need and built upon a series of abstractions, each piece of this furniture is a vision fully realized. Inspired by a thirty-year history of collaboration, designers Barbara and Robert Tiffany have brought their creative process to a peak in the Spirit Song Collection. Their remarkable teak furniture designs embody innovation, function, and a unique artistic vision.

TEAK IS PRIZED THE WORLD OVER FOR ITS NATURAL BEAUTY AND DURABILITY.

The beautiful teak in Spirit Song furnishings will dominate time itself. Known as heirloom teak, this purpose-grown material provides strength that will support generations of use. The durable heartwood of the teak tree contains oils and minerals that make it distinctively beautiful and substantive. Teak has long been recognized as the strongest and most stable wood. Ideally suited for outdoor use, this natural golden teak will gradually weather to a beautiful silvery gray.

WITH A BACKGROUND IN ENGINEERING, ARTIST AND INDUSTRIAL DESIGNER ROBERT TIFFANY APPROACHES DESIGN CHALLENGES WITH FOCUSED PASSION.

“When I thought about making a bench in wood, I started with an elegant profile which defined proper support for the seat and back of a person, tracing the reflexed leg to the floor.” From the abstract visualization of this sinuous footprint the Spirit Song bench emerged. Engineered with tensioned stainless steel rods to hold their parallel elements together and stainless steel spacers to hold them apart, the result is an ergonomic combination of stability and comfort. Robert Tiffany’s singular approach to design and engineering secured U.S. utility and design patents for the Spirit Song Collection. The furniture has also earned prestigious acknowledgements including the Design Excellence Award at the International Casual Furniture Exhibition and the ADEX Platinum Award.

THE SPIRIT SONG COMPLIMENTS ANY SETTING FROM THE MOST URBANE INTERIORS TO CORPORATE PARKS TO QUIET WOODLAND RETREATS.

Spirit Song dining furniture provides a graceful experience to be truly savored. The tables, elegantly detailed in stainless steel, are available with glass or teak tops, some with extensions. They afford a full range of seating configurations, from inspiring wing-shaped individual benches to long, curving sequences arranged to reflect and enhance the surrounding landscape. Stacking chairs offer the added convenience of conserving space when not in use. The Spirit Song Collection provides options for the perfect arrangement of furniture for home, office, or public space.

TEAK IS THE CROWN JEWEL OF TROPICAL HARDWOODS, AND THE SPIRIT SONG COLLECTION USES ONLY SUPERLATIVE QUALITY, ECOLOGICALLY FRIENDLY TEAK CULTIVATED IN DEMOCRATIC COSTA RICA.

Many producers try to take advantage of teak's reputation, but there is only one true teakwood *tectona grandis*. First European Quality (FEQ) denotes teak that has been selected as the finest in the world. Diamond Teak starts with only the best FEQ teak and then hand picks the most beautiful pieces. Teakwood exhibits the most wonderful grain and color while remaining resistant to extreme climatic conditions. High-tensile, marine-grade stainless steel is used to further guarantee durability. This furniture is designed to last more than a lifetime. Diamond Teak is unique in that we raise hardwood for use in the Spirit Song Collection on our own teak plantations. From teak seedling to fine seating, Diamond Teak controls every step in the creation of this exquisite furniture. Each piece comes fully assembled directly from Costa Rica, embodying the character and beauty of a tropical paradise.

EACH ELEMENT OF A SPIRIT SONG PIECE IS SHAPED TO MATCH THE HUMAN FORM.

"For me no design works until it is perfectly comfortable. Exquisitely comfortable. I love to see the surprise and delight when people sit on our designs. 'Imagine! A wooden seat this comfortable!'" From the words of designer Barbara Tiffany to a proven reality – the Spirit Song chairs and benches are an unforgettable experience. The smooth, elegant curves of the furniture mimic organic forms in nature, fusing grace with solid ergonomic structure.

DIAMOND TEAK PRODUCES THIS EXQUISITELY HAND-CRAFTED TEAK FURNITURE USING SUSTAINABLE, PLANTATION GROWN MATERIALS AND ENVIRONMENTALLY-FRIENDLY METHODS.

This Pennsylvania company has spent two decades perfecting the materials and craftsmanship that make the Spirit Song Collection possible. Founders Kevin and Christine Yardley met at Harvard and were introduced to Costa Rica as volunteers teaching with the WorldTeach organization. They quickly developed a philosophy dedicated to protecting the global environment through reforestation and sustainable development. This environmental commitment extends to supporting the local community in Costa Rica by creating well paying jobs with benefits. The fact that employees of Diamond Teak are treated with thoughtfulness and respect is reciprocated in the care that these craftspeople put into every piece of fine teak furniture. Diamond Teak's plantations currently protect more than 1,000 acres of primary and secondary jungle and provide safe havens for diverse tropical flora and fauna. The beauty of the Spirit Song design is matched by the respect for nature observed in its creation.
